- 2 tvONE CORIOmatrix mini scaling matrix routers for 30 monitors

List is edited from information supplied by Clair Solutions.

COMMUNICATION BREAKDOWN?

Whether you are communicating over speaker phone, video conferencing or the Cone of Silence, maximizing intelligibility is critical to your success. Unlike our ears, a microphone is unable to discern between the good stuff and the noise. By treating your boardroom or huddle space with Primacoustic, you can significantly improve the performance of your audio system and ensure your message is being received clearly. It's easy and will make everyone sound 'Smart'!

Primacoustic – Global solutions for a noisy planet™

'Get Smart' and 'the Cone of Silence' words and imagery are property of their respective owners and are not in any way connected to Radial Engineering Ltd.

Primacoustic Paintables™ 24" x 48" and Hexus-48™ Cloud Paintables panels shown.

Get smart... improve intelligibility in *your* room!
